# Highlights

## Quick release neckstrap

The quick release neckstrap includes a safety mechanism that automatically releases when the MP3 player is strongly pulled. This also makes it a convenient way to remove the neckstrap.

## Easy Twist & Release clip

The easy-to-use Twist & Release clip provides a simple and fast way to connect and disconnect the MP3 player from the neckstrap. Simply twist the clip and the MP3 player is released.

## Sliding locks

Sliding locks keep the cables together keeping them neat, secure and tangle-free. The sliding lock in the middle can adjust the size of the necklace strap for an enhanced secure fit.

## Acoustic vents

Acoustic vents allow air to flow through the ear speaker; this helps to balance the high tones and bass, creating a more rounded and realistic listening experience.

## Neodymium magnet

Neodymium is the best material for producing a strong magnetic field for greater sensitivity in a voice coil, better bass response and higher overall sound quality.

## Ultra-soft strap material

The ultra-soft strap is made from durable cotton, which has a soft touch to the skin, making it pleasant to wear.

## 15 mm speaker driver

Small enough for optimum wearing comfort and big enough to deliver crisp, non-distorted sound, the 15 mm speaker driver is an ideal size for listening enjoyment.

## Flexi-Grip design

A soft, flexible part protects the cable connection from damage that otherwise would occur due to repeated bending.
